

Dolch Pre-Primer Sight Words

Print up the following 2 sheets for parents.

Staple and send home with each child. This will let parents know that you are working on Pre-Primer Sight Words throughout the year.

Print up the sheet with the highlighted yellow on the word list. One per child. This will help you to keep track as each child learns the words.

A NOTE TO PARENTS

The following words are all the sight words that we will be studying throughout the year. Your child should spend some time (10 – 15 minutes) each day studying the words with an adult. The amount of time will vary according to the ability of the individual child.

Some tips:

- As you study the list with your child, vary the order of the words.
- If the child has difficulty reading the word, the adult can read the sentence saying “blank” in place of the underlined word.
- Your child’s progress with the sight words will be monitored regularly.

This word list is meant to aid your child. Have fun and let them enjoy what they are learning. This is a great way to develop reading habits.

Thank You!

Intentional Blank Page

Pre-Primer List

50 to 75 percent of all words in text material are common words which are repeated. These 220 words are called the Dolch Sight Words.

Because these words are used to hold thoughts together, these words must be recognized at a glance before a child can read with confidence.

The following words are for preschoolers. Print up on white card stock, trim, punch a hole in the upper left hand corner and using a key ring, connect the cards.

Dolch Pre-Primer Sight Vocabulary (Sentences)
